Name: SOKOI 3 safety harness	Code: FD113	FD11 FALL ARREST DEVICES - HARNESES
-------------------------------------	--------------------	--------------------------------------------

Description

SOKOI 3 harness is made in polyester and it features:
ATTACHMENTS: 2 chest and 1 dorsal "D" attachment for the fall arrest system.
ADAPTABILITY: Adjustable shoulder straps and leg loops.
 Sliding frontal plate for chest strap adjustment.
ADVANTAGES: Adjustable top and bottom.
ERGONOMICS: Integrated seat belt for increased worker's comfort.
MAXIMUM LOAD: 140 kg.

Sokoi harnesses are in polyester, which has a higher resistance to elongation than other materials. The harness does not stretch dangerously in the event of a fall, therefore, the worker does not risk slipping out of the harness.

Sokoi harnesses may be equipped, upon request, with a Tell-Tale fall indicator, positioned, through the seams, on the back of the shoulder; it detaches itself in the event of a fall. The harness must be immediately replaced after a fall.

Technical Specifications:

- Dorsal "D" Attachment for the fall arrest system.
- Shoulder attachment with adjustment.
- "A" or "A/2" label: indicate the attachment points of the fall arrest system.
- Labels: enclosed in a durable polyethylene bag to prevent the marking from fading.
- Sliders: the ends of the straps are locked by plastic clips.
- Chest strap fitted with single sliding buckle to allow the wearer to secure the strap in the desired position.
- Front attachments: All the textile loops are covered with a textile reinforcement.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.

Category III	Colours	Available Sizes In stock:
Quantity/Carton 1	EC Standards EN 361	Important Information Suitable for work at height. Read carefully the user sheet included. Make sure the item is in good condition, undamaged before use.
