Name: SIR JOGGER low shoe Code: MB3401K1 MB34 FOOTWEAR FUTURE JOGGER SERIES

## Description

UPPER: Technical fabric upper with TPU reinforcements for a combination of lightness, breathability and abrasion resistance;

LINING: 3D-TEX polyester with honeycomb weave for high breathability, with extra protection in the heel area;

FOOTBED: Fly Foam inhigh-density polyurethane foam with variable thickness and holes in the front area. Ergonomic and antistatic, with 3D TEX polyesterfabric lining that promotes foot breathability, reducing overheating and sweating.

FASTENING: Laces and air-mesh fabric tongue with dirt-proof gusset;

SOLE: ETPU/TPU The E-TPU (closed-cell polyurethane foam) midsole offers excellent performance in terms of reactive cushioning, lightness and flexibility across the entire surface of the foot. The TPU tread guarantees resistance to abrasion, oils, greases and hydrocarbons.

The footwear, which complies with EN ISO 20347, is designed for professional use without a protective toe cap. This standard ensures that the footwear offers protection, durability and comfort in work environments where toe impact protection is not required.

The product has been designed and manufactured to comply with Regulation

(EŬ) 2016/425 as amended.
