

<b>Name: POLYTECH 360 trousers</b>	<b>Code: MC5721Q5</b>	<b>MC57 CLOTHING - POLYTECH SERIES</b>
------------------------------------	-----------------------	--

### Description

Trousers made of a technical fabric composed by 80% cotton, 19% polyester, 1% antistatic fibre, weight 355 g/m . It features a fly with zip and button, two front welt pockets with flaps and Velcro, rear pocket with flap and Velcro, two three-dimensional functional pockets with flaps and Velcro on the legs.

The trousers shall be worn with the jacket.

- The Polytech New Generation series is made with a multi-purpose fabric that combines antistatic properties with resistance to flames, heat and chemical products.
- Thanks to its features it is multi-purpose, practical and resistant, breathable and comfortable.
- It is possible to apply Vizlite 301 and 305 FR bands, produce garments in various colors and apply FR embroidery.

In combination with the trousers, it is possible to wear our under garments: Carboflame undershirt art. MC5610 and Carboflame underpants art. MC5620.

The product is designed and manufactured to comply with the requirements of Regulation (EU) 2016/425 and subsequent amendments.
